

Clark Forklift Part

Clark Forklift Parts - Currently, there are at least 350,000 Clark forklifts performing worldwide, and in excess of 250,000 in use in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 unique makes of lift trucks, with components covering more than 120,000 specific parts for all of its automated equipment. Your local Clark Dealer is your total source for availability of all your parts needs provided by Clark Totalift.

Clark's phenomenal Parts Distribution Facilities are conveniently located in Louisville, Kentucky, which serves both their customers and dealers in North America, and Changwon, South Korea, which handles their Asian sellers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Motivated to provide the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to enhancing output and benefiting performance.

Internationally, Clark has one of the most outstanding supplier support networks. With over 550 locations worldwide, supplier representation in over 80 nations and 230 locations in North America, their high level of commitment to their consumers predominates the materials handling industry.

Clark proudly remains an innovative leader of the industrial equipment industry, revolutionizing safety features such as the operator restraint system. This exceptional commitment to safety is now a customary feature on every forklift.

Clark's relentless mission to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck manufacturer across the globe to be certified with the globally approved quality standard ISO 9001 for all of their production plants. Furthermore, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any number of environmental limitations, thus placing them in a dominant industry position.

Clark has selected the system of "Lean Manufacturing" at all of its assembly plants for the reason that this method is extremely economical and allows for minimal use of resources. Developed to ensure maximum proficiency, this system is intended to find and acknowledge the most effective ways for manufacturing facility stewardship. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to perfect the effectiveness and excellence of their merchandise while minimizing costs. The contemporary value engineering program combines innovative product growth and delivers superior client support and service within the industry.
