

Advance-Nilfisk Part

Advance-Nilfisk Parts - Imagine how long and tedious it would be to tidy up right after a party, without help from equipment. Not too long ago, the dust from upholstery and carpets had to be beat out of them by hand; cleaning cloths, brooms, and brushes were the best cleaning products back then.

P.A. Fisker, the founder of Nilfisk-Advance, was an electrical engineer who loved working with electrical motors. Establishing the company in the year 1906, he began to produce motors to drive fans, machine tools, coffee grinders and drills. Mr. Fisker's dream from the beginning was to have a global business selling goods internationally.

The Nilfisk C1 was an incredible breakthrough for the cleaning industry. This ground breaking vacuum cleaner, invented by Mr. Fisker, weighed only 17.5 kilos and can be operated by a single person. This invention came in a time where numerous cleaning equipment were massive and needed 4 or more operators, therefore, the Nilfisk C1 changed everything and evolved the method we clean forever. The genius behind these very first cleaning machines remains unparalleled. Cleaning machines provide an excellent solution to an ongoing crisis; things get filthy and must be cleaned on a regular basis, without a lot of effort.

Little by little, the company Nilfisk-Advance expanded throughout the years. During the early nineteen eighties the business grew more rapidly when the company became a part of the NKT Group. With new owners on board, they focused on driving Nilfisk-Advance ahead within the industry, aiming to be an active global player in producing professional cleaning equipment. Nilfisk-Advance is now represented in every part of the globe by gradually acquiring numerous small businesses so as to develop their product selection and presence in new markets. They are proud to offer a range of cleaning solutions to fit each requirement.
