

Electrical Part for Forklifts

Forklift Electrical Parts - Forklifts could be purposely labeled for use in unsafe locations. A labeled forklift indicates the design has met the lowest requirements of ANSI/UL 558 used for engine powered forklifts or ANSI/UL 583 meant for electric lift trucks for the type of label placed.

The application for labels utilized for lift trucks may be found in National Fire Protection Association NFPA 505 - Powered Industrial trucks including: Maintenance and Operation, Type Designations, and Areas of Use. Consult your local insurance carrier and Fire Marshall for additional info regarding the approved uses of industrial powered trucks in your application.

If the particular lift truck satisfies the outlined standards, labels could be placed. A labeled lift truck will show the type of designation placed on the nameplate and will have a properly corresponding label put.
