

Ingersoll Rand Forklift Part

Ingersoll Rand Forklift Parts - Ingersoll Rand provides solutions, services and products to be able to ensure efficiency and increase the productivity in residential, industrial and commercial environments. They pride themselves in providing products in order to enhance the safety, comfort, security and health of people around the world through their four worldwide segments.

From their Climate Solutions division comes a product line of energy efficient HVACR solutions. The Thermo King is the leading transport temperature control, while Hussman manufactures food merchandising and refrigeration solutions. Trane is a trusted provider of energy efficient air conditioning and heating ventilation systems, contracting and building advanced controls, services and parts support for both residential homes and commercial buildings.

Ingersoll Rand's Industrial Technologies sector offers solutions and products that enhance their customers' productivity, operations and energy efficiency. The product range is diverse ranging from pumps and tools, fluid and material handling systems to complete compressed air systems. They have likewise developed Club Car, the global leader in utility and golf vehicles intended for businesses and people.

Brands like Schlage and Trane provide residential solutions that offer efficiency, comfort and safety to home owners across North America. Their innovative products comprise mechanical and electronic locks, indoor air quality solutions, heating and air conditioning systems, advanced controls, remote home management and portable security systems.

Ingersoll Rand' Security technologies provide products which ensure safe, productive and secure surroundings. This division's market leading products comprise door and floor closers, exit devices, portable security devices, electronic and biometric access control systems, cabinet hardware, steel doors and frames and locks, decorative hardware and locksets. Schlage also has products that provide attendance, personal and time scheduling systems.
