

Rockwell Part

Rockwell Parts - The company of AxleTech International is a large supplier of specialty vehicle drive-train systems and components along with off highway vehicles. They take great pride in being a chosen supplier to their customer base. AxleTech strives to exceed and meet their customers' expectations for quality, service, technology and delivery. They believe in working in an environment that supports the utmost integrity with empowered collaboration, combined with a unremitting pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great importance on being an environmentally conscious company and providing a safe environment for their workers to work in. In addition, they have implemented lots of programs in the company to be able to help articulate these values in their business policy. AxleTech happily shares this policy and welcomes interested parties to provide them with any comments or questions, as they are glad to share and promote this policy with a greater understanding of their efforts. They are extremely committed to improving and preserving the natural world. AxleTech has an EHS program which not just protects the environment but which likewise actively protects their neighbors and workers as well.

AxleTech prides themselves as being an innovative drive-train solutions provider. They specialize in designing and manufacturing planetary axles for both military and commercial applications. These applications range from construction equipment to airport ground support. AxleTech particularly designs axles to meet specific application demands. They have over 1000 different axle specs in their existing offering. With more than 100+ years of skill and history, AxleTech proudly supplies the most complete solution for any of your axle needs. The business is well known in various military and commercial applications. They offer complete axle assemblies used for aftermarket replacement needs, together with servicing axle requirements for OE production. Their high mobility ISAS have further details which could be seen in the "ISAS" product selection.
